

Custom UAV CAD File License & Commercial IP Pack

Description

The **Custom UAV CAD File License & Commercial IP Pack** is a ready-to-deploy digital product for professionals and organizations developing custom drones. This bundle includes editable 3D models with a **commercial-use license** to accelerate your product pipeline.

What's Included in this Pack:

- Fully editable STL + STEP files (Fusion 360 compatible)
- UAV frame with reinforced arms and landing legs
- Detachable payload bay & mounting modules
- Vibration-dampened sensor mounts
- Modular part designs for 3D printing or CNC
- Commercial use license (non-exclusive)
- IP ownership & terms PDF included

Who's Ideal for:

- UAV product designers

- Aerospace startups
- Research institutions
- Contract drone manufacturers

• Reuse, modify, and integrate into your own commercial drone products without design limitations.
