

Ethical AI Compliance Evaluator – Scan Your AI Startup for Risks

Description

Ethical AI Compliance Evaluator – Scan Your AI Startup for Risks

Build Trust, Win Investors, and Innovate Responsibly.

AI is transforming industries – but also raising urgent questions around ethics, bias, and regulatory risk. The **Ethical AI Compliance Evaluator** helps startups, investors, and advisors proactively detect potential ethical challenges in AI products, business models, or pitch materials.

Key Features

- **Scan Your Pitch Decks & Business Plans**
Upload documents and receive a comprehensive scan for AI ethics flags, regulatory gaps, and social impact risks.
- **Ethical Risk Scoring**
Get an objective score that highlights your startup’s ethical strengths and areas needing improvement.
- **Regulatory Checklists**
Receive region-specific guidance (e.g. EU AI Act, U.S. AI Executive Orders) to help ensure compliance and future-proof your product.
- **Investor-Ready Reports**
Generate professional PDF reports summarizing findings and recommendations – perfect to show due diligence and responsible practices during fundraising.

Who It’s For

- AI startups preparing for funding
- Responsible investors performing due diligence

- Compliance consultants advising clients in AI
- Incubators and accelerators supporting AI ventures

Pain Points Solved

- Navigating AI ethics standards
- Risk of investor pushback
- Complex regulatory landscape

Pricing

- \$3,000/year license
- \$500/report on demand

Date Created

July 6, 2025
